May 2023

We may ignore, but we can nowhere evade the presence of God. The world is crowded with Him, He walks everywhere *incognito*. And the *incognito* is not always hard to penetrate. The real labour is to remember, to attend. In fact, to come awake. Still more to remain awake.

A final thought

The secrets in God

There is a place in God himself, into which no-one can enter but that one person alone. From that room, from that unique place inside, the individual has to bring revelation and strength for others. This is what that person in particular was made for: to reveal secret things from the Father.

Every one of us is something that the other is not, and therefore knows something – maybe without knowing that they know it – which no one else knows: and it is everyone's task, as one of the kingdom of light and an inheritor of it all, to give their portion to the rest.
